

So many people took THE RIGHT TURN off the ferry to the authentic outport of Rose Blanche or came by yacht from Quebec, Rhode Island and even Kodiak, Alaska. Few were disappointed with their visit to the granite coast. To the many people who shared ideas, it was fun and you are appreciated. Many of your suggestions have already been initiated, while others are evolving.

In 2015, a new initiative will begin offering four educational vacation workshops here at the **Rose Blanche Summer Study Centre**, with accommodation at the RoseSea Bed and Breakfast. One of the following workshops could be the answer to your Christmas or special occasion shopping.

My guest book, in which so many people have written about a colourful personality that influenced their lives, is coming somewhat closer to becoming a book about running a Bed and Breakfast and Studio in Rose Blanche, NL. "ONLY IN ROSE BLANCHE NEWFOUNDLAND YOU SAY!"

Local resident Kathy Savoury and I are presently working on a photo book of Rose Blanche, Diamond Cove and Harbour Le Cou, through the seasons and over time. Our aim is to have it published for the **Rose Blanche 2016 Come Home Year** celebration.

Of importance to me, are the numbers of people that made the right turn and who are facing serious challenges in their lives. By making the right turn they discovered peace in the NOW here at RoseSea Bed and Breakfast and Madolyn's Studio. May this Christmas season offer this same type of inner peace to the many friends who visited us and who have, in turn, added greatly to our shared lives.

Merry Christmas and a Healthy and Happy 2015.
